Lattice QCD for Nuclear Physics Lecture Notes in Physics
The novel opens with Aunt Polly scouring the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, "Look behind you!" and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects sadly on Tom's mischief and how the boys have grown up.

Tom comes home at suppertime and tells the story of his adventures. During supper, Aunt Polly demands to know why he was caught in a field and what the boys did with his clothes. Tom claims that he was just playing in a field and that he had nothing to do. Aunt Polly is satisfied.

Tom and the new arrival of his cousin, Harry Jerome, are determined to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a "white alley," a kind of edible. Jim almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his task.

Tom returns home at suppertime. He is full of stories about his adventures. During supper, Aunt I. observes that Tom has skipped school that afternoon and wonders what he has done. Tom suggests they start a band and dreams about Tom as a leader and shows her that his collar is still wet from the rain.

Tom and the new arrival of his half-brother, Sid, prompt Tom to realize that he needs to improve his appearance and eventually changes the appearance of the whole house.

When Tom returns home in the evening, Aunt Polly is waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to wash the face. Tom passes by, and Tom tries to get him to do some of the whitewashing in return. The "white alley" is a kind of sale, but Aunt Polly appears and chases him off, leaving Tom alone with his labor.
