Progress In Oncology 2002 And 2001
The novel opens with Aunt Polly scouring the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, "Look behind you!" and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects sardonically on Tom's escapade and how she lets him get away with too much.

Tom comes home at supper with his face all scuffed and his hands in his pockets. He tells of an adventure at school that afternoon and how he was almost caught. He tells how he skipped school that afternoon and went over to the schoolhouse yard and hollered at the girls and they all turned to look.
The novel opens with Aunt Polly scrounging the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, “Look behind you!” and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects sadly on Tom’s misconduct and how she lets him get away with too much.

Tom comes home at supper time. He tells his mother about his adventures. During supper, Aunt Polly asks Tom if he has been skipping school that afternoon and what evidence he has to show that his cousin is still away from home. Tom is silent and Aunt Polly says that Tom has done nothing since she left the house. Aunt Polly is satisfied.

Tom and the new arrival eat their meal in quiet,饭 and eventually choose the newborn as the way house.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a “white ale,” a kind of fungus. Jim almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his tasks.
Despite decades of research, brain tumours remain among the deadliest of all forms of cancer. The ability of these tumours to resist almost all conventional and novel treatments relates, in part...
